Turning a proven reuse business into a scalable circular platform

Founded in 2002, Movement has developed from a small resale operation into a nationwide B2B reuse platform combining sourcing, refurbishment, warehousing, logistics, installation and resale.

THE OPPORTUNITY

A small reused segment is growing into a structural market

A defining moment when Movement acquired a large volume of office furniture from PwC during a relocation. With only a few weeks to clear the premises, Svein Moen (founder of Movement) quickly photographed and listed the furniture online, then invited customers to showroom sales.

THE CIRCULAR MODEL

Value is created at every step of the reuse loop

Movement turns fragmented supply and demand for used furniture into a professional, repeatable B2B service.

BANKABILITY INDICATORS

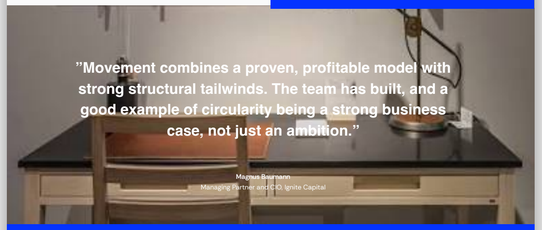

From Founder-Led Resale to a Scalable Circular Platform

Ignite's investment followed a proven business model and structural market growth, with a clear opportunity to professionalise the organisation, strengthen operational infrastructure and build the capabilities needed to scale.

01 Proven profitability and demand

02 Scalable economics

03 Integrated infrastructure creates a competitive edge

”Movement combines a proven, profitable model with strong structural tailwinds. The team has built, and a good example of circularity being a strong business case, not just an ambition.”

Magnus Baumann
Managing Partner and CIO, Ignite Capital
