3stepIT
Go full circle

The bank partnership that scaled circular IT

SPHERE — CIRCULAR FINANCE

3stepIT provides end-to-end IT lifecycle management. By combining leasing with refurbishment and reuse, it turns used devices into a source of recurring revenue.

Its 2019 joint venture with one of Europe's biggest banks BNP Paribas brought together financing expertise and circular technology management.

INVESTMENT THESIS

Bank-backed leasing made circular IT scalable

from BELIEF *to* BANKABILITY

Make every device worth more

Businesses need IT, but buying new devices repeatedly is costly and resource-intensive. Leasing creates a way to manage, recover and reuse devices instead of letting them become waste.

REUSE RATE CIRCULAR

AVG. LAPTOP LIFE: 7 YEARS

REUSE RATE LINEAR

AVG. MAX LAPTOP LIFE: 5 YEARS

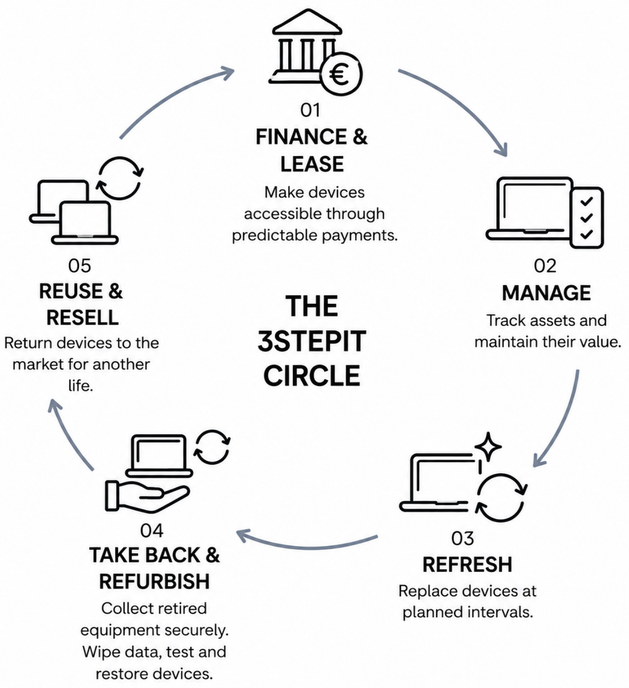

€32bn → €73bn

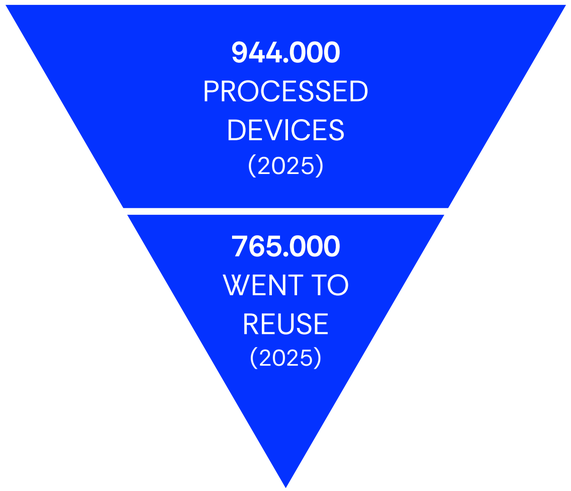

EUROPEAN REFURBISHED ELECTRONICS MARKET, 2025 TO 2033 (PROJECTED)

3stepIT
Go full circle

Leasing makes reuse part of the business model

3stepIT retains control of the device lifecycle. Planned returns create a supply of used equipment that can be refurbished and put back to work.

1.800 TONS - WASTE AVOIDED

88.000 TONS - CO2 EMISSIONS AVOIDED

Every returned device becomes a potential new revenue stream.

From leasing company to circular platform

1990
FOUNDED

Build a business around leasing IT and recovering devices.

2019
TURNING POINT

Launch a joint venture with BNP Paribas, combining bank financing with circular IT expertise.

€789M
2022
REVENUE

Group turnover reaches approximately €789M,

€800M
2023
REVENUE

Net turnover reaches approximately €800M.

€30.5M
2025
EBITDA

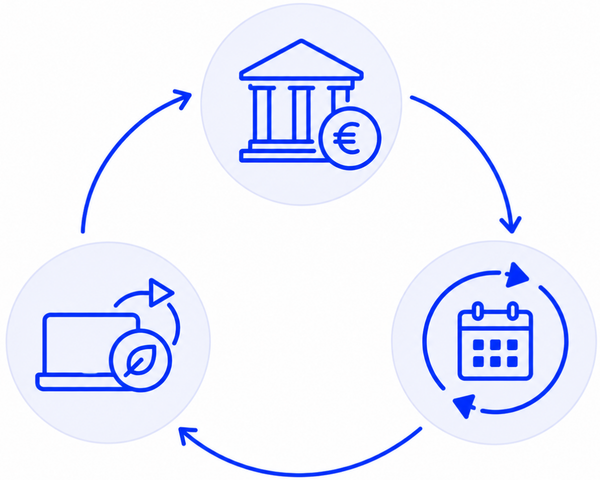

€756.2M revenue and €30.5M EBITDA. Nine in ten returned devices receive a second life.

3stepIT
Go full circle

Finance made circularity scalable

The result: A circular model built on repeatable transactions, asset recovery and financial value.

01. BANK-BACKED FINANCING
The partnership combines BNP Paribas' financing expertise with 3stepIT's IT asset management.

02. PREDICTABLE RETURNS
Leasing gives 3stepIT greater control over when devices return and their condition.

03. RECOVERABLE VALUE
Refurbishment and resale turn returned devices into a new revenue opportunity.

THE SCALABLE LOGIC

Scaling doesn't always mean building more. Sometimes it means combining two partners' strengths to make a business model work at scale.

3stepIT
Go full circle

Circularity needs a commercial engine

01 LOOK FOR A FINANCING SOLUTION

A circular idea becomes more scalable when customers can access it through a workable financing model.

02 CONTROL THE ASSET LIFECYCLE

Leasing secures the return flow needed to recover value and reuse devices.

03 LOOK FOR A PARTNER TO SCALE

Combine complementary capabilities instead of building everything alone.

Finance turns returned devices into a predictable source of future value.

“They have unrivalled risk management skills, we have IT asset management expertise.”

Carmen Ene
CEO of BNP Paribas 3 Step IT.

BANKABILITY INDICATORS

1. BANK-BACKED FINANCING MODEL

The 2019 joint venture with BNP Paribas combines financial expertise with IT asset management, making circular IT accessible through leasing and predictable payments.

2. PREDICTABLE RETURNS AND RECOVERABLE ASSETS

Leasing creates planned return flows, allowing 3stepIT to refurbish and resell used devices. In 2025, 765,000 devices went to reuse, and nine in ten returned devices received a second life.

3. PROVEN SCALE AND FINANCIAL PERFORMANCE

With €756.2M in revenue, €30.5M in EBITDA and more than 7,000 global clients in 2025, 3stepIT demonstrates that circular IT lifecycle management can operate at significant commercial scale.
